Project Name	Credit Card Approval Prediction System
Maximum Marks	2 Marks

Data Flow Diagram

Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	Applicant (User) who submits credit card application details and receives the prediction result.
Rectangle with numbered header	Process	Processes such as Receive Application, Data Preprocessing, Credit Card Approval Prediction, and Generate Result that transform input data into a prediction.
Rectangle (solid fill, no number)	Data Store	Applicant Database, Training Dataset, or Trained Machine Learning Model used to store and retrieve data.
Labeled arrow	Data Flow	Shows the movement of data such as Applicant Details, Processed Data, Prediction Request, and Approval/Rejection Result between the user, processes, and data stores.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
