

Project Demo Planning

Date	5 July 2026
Team ID	
Project Name	Credit Card Approval Prediction System
Maximum Marks	1 Mark

Project Demo Planning:

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, objectives, and overall system workflow.	1	Reddy Naga Vignesh
2	Problem Statement	Explain the need for an automated credit card approval prediction system.	1	Reddy Naga Vignesh
3	Data Preprocessing & Model Training	Explain dataset preprocessing, feature encoding, Random Forest model training, and evaluation.	2	Reddy Naga Vignesh
4	Login Authentication	Demonstrate the user login functionality and secure system access.	1	Reddy Naga Vignesh
5	Live Application Demonstration	Enter applicant details, generate prediction, display confidence score, and show approval/rejection result.	3	Reddy Naga Vignesh

6	Prediction History & Dashboard	Demonstrate SQLite database storage, prediction history, and dashboard analytics.	2	Reddy Naga Vignesh
7	Conclusion & Q&A	Summarize the project, discuss future enhancements, and answer questions.	1	Reddy Naga Vignesh

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the project objective, problem statement, and expected outcomes.
2	Solution Overview	Explain data preprocessing, Random Forest model, Flask application, and system architecture.
3	Live Feature Demonstration	Demonstrate login, applicant data entry, prediction result, confidence score, prediction history, and dashboard analytics.
4	Q&A Session	Answer questions related to machine learning, Flask application, database integration, and future enhancements.
